Grant for a PhD cotutelle between France and Finland

International
In cooperation with the Institut Fran\c{c}ais in Finland and in the framework of the bilateral scientific cooperation between France and Finland, the Niilo Helander Foundation is offering a 30 000 euros grant this year for any PhD student in cotutelle between France and Finland in all fields of research.

International cotutelle or thesis cotutelle is a mechanism that promotes mobility among doctoral candidates while encouraging scientific cooperation between French and foreign research teams. Candidates conduct their research under the oversight of, and with guidance from, a dissertation adviser from each of the two countries involved in the program. Working jointly, both advisers provide a full measure of supervision for the candidate.

The candidate conducts his research in the two countries under the terms of the agreement governing the program. This agreement may introduce more flexibility in the definition of these terms and allows adapting the general framework for each student therefore improving the proper progress of the doctoral studies.

Application deadline: April, 18th 2019
